

## ASTEC<sup>®</sup> TRANSPORT DOLLIES

ASTEC Transport Dollies are a solution that provides controlled movement of the ASTEC equipment to a desired location within a customer's facility. If overhead clearance, permanent plant structures or limited overhead crane travel is a challenge, the ASTEC Transport Dollies are a perfect solution.

### Features and Benefits:

- Low clearance of 30mm (floor to bottom of dolly).
- Swivel Casters with Stop Top Brake on Front Dolly, allow controlled movement and secure placement.
- Front Spring Caster prevents bottoming out on uneven floors.
- Tow Motor and Industrial Fork Lift capable.
- Steel Structure, providing durability of up to a combined weight of 26,000 lbs/13 tons.
- Highly compressed nylon casters, preserving floor surface and tread surface abrasion.

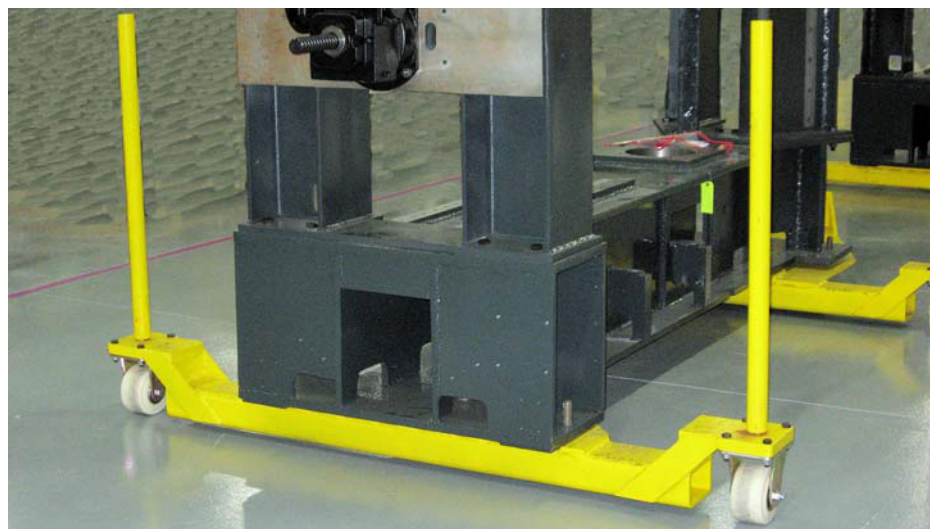

*Front and Rear Transport Dollies*

Micro-Poise Measurement Systems, LLC is constantly striving to provide complete system solutions to our customers, fulfilling their needs and requirements.

### Micro-Poise Measurement Systems, LLC

For more than 90 years, Micro-Poise has been supplying innovative solutions that put us on the leading edge of final finish tire testing technology. Contact us today to see why *The World is Turning to Micro-Poise* for all of their final finish tire testing needs.
