

TGIS-SL® AkroSCAN™ Laser Sensors

For All Testing Machines Equipped With TGIS-SL®

The AkroSCAN™ laser sensor by Micro-Poise features the largest measurement area and field of view, fastest scanning rates, and highest resolution of any similar sensor in the industry. These sensors are a vital component of the final finish tire and tire & wheel inspection process. Micro-Poise now offers repair programs designed to meet your specific sensor needs.

AkroSCAN™ Sensor

TGIS-SL® Geometry System

You can now receive a certified refurbished sensor in exchange for a damaged sensor in need of repair. This is the fastest method of replacing a damaged sensor just short of having a brand new sensor in stock at your facility. Micro-Poise provides certified refurbished sensors with a full one year warranty.

Replacement Sensors

New Sensors

AkroSCAN™ Y1, Y2, or Y3
HSSI Upgrade to AkroSCAN™ available

Repair Exchange Program

Certified Refurbished Sensors

AkroSCAN
HSSI Upgrade to AkroSCAN™ available

- Purchase order must be received prior to shipment of replacement sensor.
- Purchase order must be issued for the replacement sensor and for a core charge. The core charge will not be invoiced if the damaged sensor being replaced is returned within two weeks and is in repairable condition.
- Repair exchange is not available for sensors requiring a new camera or requiring replacement of all internal parts. This type of repair will be quoted separately.
- Micro-Poise backs certified refurbished sensors with a full one year warranty.
- HSSI sensors are not available for repair exchange. HSSI sensors are obsolete and an upgrade to AkroSCAN™ is available. Discounts are available for trading in HSSI sensors.
- Customers should utilize the Sensor Trouble Shooting Guide and be sure to complete the Sensor Return Data Sheet prior to returning any sensor.

Sensor Repair Program

Micro-Poise now offers an extensive menu of repair options tailored to match your needs. You benefit by only paying for what is damaged and receive a 90 day warranty.

Level #1: Diagnostic Evaluation Service

Includes:

- Sensor evaluation.
- Diagnosis and reporting of sensor problem, as well as generation of a repair quotation.
- If any below repair service (Items #2 – #9) for this sensor is purchased, or if a new replacement sensor is purchased, the Diagnostic Service Fee above will be waived.

Level #2: Basic Repair Service

Includes:

- Diagnostic Evaluation Service.
- Disassembly, cleaning, and re-alignment of laser.
- Sensor calibration, qualification, and re-packing.
- For HSL sensors, filter will be replaced and, if lens is the plastic style, will be upgraded to the new metal version.

Level #3: Basic Repair Service + New Glass Window

Level #4: Basic Repair Service + HSL Lens (Metal)

Level #5: Basic Repair Service + VHSL or VHSLE Lens

Level #6: Basic Repair Service + New Laser

Level #7: Basic Repair Service + New Housing

Level #8: Basic Repair Service + New Camera (Not available for HSSI)

Level #9: Basic Repair Service + All Component (Not available for HSSI)

Prices effective 8/16/2010

Prices subject to change without notice, consult Micro-Poise at micropoise.csdsales@ametek.com for more information about our complete line of sensor options

Globally Positioned to Serve **You**
